6 TRAITS ALL WOMEN SHOULD HAVE

“Every successful woman knows her worth. It’s her values that make her who she truly is. And I for one, live by that premise. When I know my value, I know how I can be the best I can. You can too. No woman is subject to her lack. Your essence is always in your inner and outer beauty. You just need to know how you can flaunt it with your charismatic ways and your natural elegance.”

SAM KHO

DEPUTY CEO OF
RETURN LEGACY

Whether it's your career or your personal life, we all have the same kind of trials and tribulations. But the stronger woman will always emerge victorious.

Now let's focus on 6 traits or values that make you beautiful, charismatic and powerful at the same time. Every day, my actions and decisions are backed by these traits. And they support me in becoming the woman I am today.

1 ACCEPT THAT NOTHING IS IMPOSSIBLE

For Audrey Hepburn, the word impossible is actually "I M Possible". So it's all about stripping away self-doubt and leaning in a little bit more to tackle what comes your way. A successful woman only sees possibilities – for her there can be no other way than through.

2 CONFIDENCE IS ALWAYS NECESSARY

Without this value in life, you'll always be in the background. Strive for confidence in every task that you undertake. The moment you shine in confidence, it means you stand for what you believe in and with unwavering commitment, nothing can bring you down.

3 RISK IS JUST ANOTHER "CHALLENGE ACCEPTED"

This is always about being fearless. But guess what, you cannot be fearless, you can only fear less. We will always have fear, the challenge is to lessen it. Essentially, the word fear is just this: False Evidence Appearing Real. So go on, take those risks!

4 TURN YOUR FLAW TO AWE

We all need to accept our shortcomings and when we do, we can then easily find ways to improve it. Flaws are natural. If you don't know what's bad, how can you know what's good? So from now onwards, improve your flaws bit by bit and one day your flaws will no longer exist. That's when you begin to awe people and shine bright like a diamond.

5 PERSEVERE IN EVERY ENDEAVOUR

An assiduous woman has its benefits. When you're assiduous, others can count on you easily for being the one who perseveres through thick and thin. You are steady, deliberate and you are constant in your efforts. We all know that turning into a successful woman doesn't happen overnight. It takes a lot of hard work and perseverance.

6 LIVE IN THE NOW

We all have pasts. But letting that dictate our life now is redundant. Strive to be in the present moment. Being in the now is powerful because you will never feel insecure about what life throws at you. It's when you begin to ruminate about the past and worry about the future that you forget to do your best in the present. So BE HERE NOW.

Every Legasian woman is beautiful and wonderful in so many ways. I am positively sure that her inner and outer beauty make up for her worth. So before you head out and be awesome to the world, here's a message that I would like to leave you with:

The moment you acknowledge that light within you, you can walk the darkest path with so much confidence that you light the way for others.

To further inspire their zeals for life, Return Legacy brought its top performing distributors to a 4 days, 3 nights trip to discover the mesmerizing charms of Bali, allowing them to relax and reinvigorate their spirits. We hope that more of our members will accompany us, as we strive forwards for future successes!

**“THERE IS NO PRODUCT
THAT CAN’T BE SOLD,
ONLY THOSE WHO ARE
UNABLE TO SELL”**

This mantra helped to inspire plenty of my successes. When you are used to being at the top, you would always want to keep it that way, and you will not allow yourself to slack off and be lazy as you would want to take advantage of any learning opportunity that is presented to you.

ROYAL PRIME

APPLE LOW PEI LING

Q1 What is the motivation behind your success?

The early stages of my motivation stems from the circumstances of my life – I wanted to own a better-quality life and improve my family's financial condition. I did not want them to be busy working in different regions during the Lunar New Year until we're unable to enjoy the reunion dinner together as a family. My father passed away before he could witness the success I've achieved today – thus, I hope to achieve my dreams before my mother grows old and become the pride of my family.

When it came to the later periods, leading my team towards success became my greatest motivation. As a leader, you only want your team to attain the greatest of achievements because you know they are more than capable of doing so. Every member will and is gradually growing and learning as they work towards their goals, and I hope to be able to work together with the team until every one of us are able to attain financial and personal freedoms, and able to live the lives we've always dreamed of.

Q3 Could you please share what inspiration and help you have received on your journey to success?

I am extremely grateful and blessed, as the management team were always quick to offer me help and guidance, and the opportunities they provided allowed me to grow from a person who once knew nothing and lacked self-confidence to who I am today. I firmly believe that 'there is no product that can't be sold, only those who are unable to sell', and this mantra helped to inspire plenty of my successes. When you are used to being at the top, you would always want to keep it that way, and you will not allow yourself to slack off and be lazy as you would want to take advantage of any learning opportunity that is presented to you. Moreover, each hardworking member in the team, as well as the trust my customers have in me are other important factors that motivates me too.

The greatest achievement in running this business is that it is able to positively change the lives of so many people. Whether it be the good news they receive from the company or the network of love and support they now have via this platform, it makes me feel happy and blessed to witness this as well.

Q2 What prompted you to achieve today's results?

1 FAITH

Believe that you are the basis of accomplishing your goals. After all, if you do not believe in yourself, who will?

2 BE WILLING TO LEARN

Learning is key, as anyone is able to use their willingness to learn new knowledge, which can later be utilized to materialize their thoughts into moulding a professional career.

3 REMAIN FOCUSED

When you are focused and are pouring your heart and soul into the task at hand, you are fully committed to the project and are able to grow rapidly from the experience.

4 ACTION

Action is the key to success; do not be afraid to fail. Understand that if you have put in the hard work, it will never be a wasted effort.

Q4 How do you deal with and solve the difficulties encountered in the course of operating direct sales?

When I first approached the direct marketing industry, I was akin to a blank page, and this platform had filled me in with the most wonderful of colours. This is a people-oriented industry; and it is safe to say that you will meet lots of people in the line of work. There will be people who like you, who respect you, are jealous of you, and even people who just dislike you at all. I would like to say that I am a person who wears their heart on their sleeve, and I am often easily affected by small matters or issues. When you have experienced and pushed through a number of ups and downs, you will eventually learn to keep your personal thoughts and emotions in control. It is also advised to solve the smaller issues as they arise, to prevent them from snowballing into a larger concern that may be difficult to solve later. The most important thing to bear in mind however is still to do whatever you need to do. My mentors have constantly advised me to not hark on comparing myself to others, and to not be calculative with others, advice that I still hold dear to my heart today.

Q5 Could you divulge to us some of your sales and marketing tips?

There are no secret tips or tricks to sales – just be clear on what you want. Ask yourself on what you truly want, and what steps need to be taken in order to accomplish the results you desire. You will find yourself gradually inching moving forward, inching towards becoming a confident professional in the field. When you have such preparations ready at the helm, you will eventually find others with a similar wavelength and goals such as yours to add to your team, members who are willing to push towards success together.

Q6 Who is your biggest influence in life?

My biggest influences would definitely be my mentors, the founder and the CEO himself. They are the first few people I have encountered in the direct marketing industry, and they have more than 20 years of experience in the field. From a woman who was like a blank page, to a professional who is at the pinnacle of her career, I will always remember their wise teachings - to constantly learn, to constantly adapt, to constantly grow, to do what you love, and to lead those under you towards achieving success.

Q7 What do you think is the difference between operating direct marketing and a traditional business?

The most amazing aspect of direct marketing is how quickly it grows in numbers. It is an extremely fun industry to be in as well; it has a low threshold, flexibility in hours, with plenty of leaders who are more than willing to help you learn and grow. The people you meet in the field also come from all different walks of life, and there is always something to learn or insights to take away from them. As the adage goes, learn to be a person first before you set out to work.

Here, regardless of your background, academic qualifications, connections or network, even if you are starting from the ground up, so long as you are willing to work hard you will achieve success. While we do invest lots of time into learning and sharing our experiences, there's no time limit on the process of doing so, and we're able to use a variety of different methods and skills to operate the business and to strengthen the team.

I will reiterate this - so long as you are willing to learn, you will make short work of the process and are able to achieve immense wealth and experiences, which then can be taught to the next generation of members.

As for the traditional business models, a lot of prerequisites are required for success, such as a large capital, management knowledge and relevant experience.

While it is easy to start-up a business, the challenge lies with maintaining it, and it is fairly difficult to learn when you are struggling with managing the business for most of your day. Success can only be achieved by your own strength.

Inadequate management may also create a situation where individuals are at risk of losing their businesses. It poses a challenge where they would lack the time to search for an appropriate successor or assistant to keep the business afloat. Moreover, we must consistently innovate and adjust business models accordingly with the times.

Q8 What is your next goal, moving forward?

My next goal is to break into the international market with the company and become an influential figure who inspires others.

OPTIMIZES MEN'S HEALTH

Mandiva

Health management or wellness programmes typically hold more significance among women, when in fact, men should also be concerned about health care as they also suffer from endocrine disorders, thus leading to androgen imbalance.

Androgens are hormones that regulate the growth and development of male reproductive organs, help maintain normal sexual desire and reproductive function. To ignore such androgen imbalance may possibly result in certain diseases which are preventable in the first place.

Testosterone is a type of androgens secreted by the testes. The main functions of testosterone are as follows:

1 Testosterone is a hormone that builds male bone mass. It maintains bone density, bone minerals, and ensures bones stay strong.

- 2 Provides overall vitality. Testosterone can stimulate red blood cell production and enhance oxygen transport function.
- 3 Increases muscle mass. Testosterone can enhance muscle strength and the diameter of muscle fibers.
- 4 Provides sexual function, maintains male fertility and helps on fat loss.
- 5 Strengthens brain function and improves memory.

Symptoms of androgen imbalance:

Hair loss

Reduced concentration

Depression and irritability

Lethargy and fatigue

Sleep disorder

Low sex drive

Physical changes such as obesity and decreased bone density

Androgen imbalance can cause Prostate Disease

Prostate related diseases such as Benign Prostatic Hyperplasia (BPH) is a prevalent problem in men in particular amongst those with 40 years of age and above. According to Harvard Medical School (HMS), BPH affects 50% of men by the age of 60 and 90% of men by 85 years old. The causes of BPH are related to androgen imbalance and ageing. The testosterone secreted by the testes are converted into dihydrotestosterone by the body's tissues. Dihydrotestosterone promotes prostate growth and eventually leads to BPH.

Many men are uninformed about BPH, and the lack of understanding such has led to many people regarding this condition as a normal process of physiological aging.

The main symptoms of BPH are related to urination, because the enlargement of the prostate will block the urethra and result in the gradual decline of bladder function.

The main symptoms are as follows:

Weak urine stream

Abnormal urination

Sudden urge to urinate

Difficulty urinating

Intermittent urine flow

Frequent urination

Inability to completely empty the bladder

BPH can lead to prostatitis too. Prostatitis is the inflammation or swelling of the prostate gland, which is commonly found on young and middle-aged males. A survey conducted in North America, Europe and Asia in year 2003 found that about 15% of men had suffered from prostatitis. Prostatitis is generally caused by bacterial infection, and men affected by BPH have higher possibility of having prostatitis. This is because the residual urine due to urine retention may cause bacterial infection in urinary tract, which eventually leads to prostatitis. Men who are suffering from prostatitis may affect their sexual ability too.

Long-term chronic inflammation can cause changes in the composition of prostatic fluid, affect prostate secretion function and semen liquefaction time, resulting in decreased sperm motility and even male infertility. From a medical point of view, if a couple who are of child-bearing age do not conceive after 12 months of normal sexual activity without any contraceptive measures, they would be classified as infertile. More than 70 million couples in the world suffer from infertility issues with infertile males accounting for at least 50% of the total cases, making male infertility a controversial topic.

Causes of androgen imbalance:

Irregular & unhealthy lifestyle

Exposed to pollutants and synthetic chemicals

Ageing

Long-term malnutrition

Excessive stress from family and work

HOW MUCH DO YOU KNOW ABOUT SKIN AGING?

Anti-aging care is a lifelong investment, and its results can't be achieved in a haste. Having the right knowledge when it comes to skincare can enhance the effectiveness of its anti-aging properties. Here are some frequently asked questions related to anti-aging.

Q1 Are anti-oxidants the same as anti-aging?

There are two main culprits to aging skin – the first is indeed related to age, while the second is oxidation. Ultraviolet rays, pollutants in the air, stress, and emotional distress can cause the body to produce free radicals, which accelerates the aging process. Hence, to achieve the best possible results from your anti-aging products, it is a must to first prevent oxidation. It also helps to remove free radicals and their damaging effects.

Q2 How early should we start having an anti-aging routine?

Generally after the age of 25, the repair mechanisms in a woman's body will begin to deteriorate, and the rapid loss of collagen results in skin losing its natural elasticity and the appearance of wrinkles.

If anti-aging care is taken after the first few signs of aging has appeared, it will certainly not be as effective if compared to an anti-aging routine that was implemented at age 25. Prevention is key when it comes to anti-aging; thus it is crucial to apply anti-aging products before fine lines and wrinkles are visible, which can assist in slowing down the aging process.

If you wish to hear your friends complimenting your youthfulness by saying "you look so young!" when you're in your forties, early anti-aging care is a must, lest you want to hear someone saying you look much older and mature beyond your actual age!

Q3 Are anti-aging products only suitable for mature skin?

If you were of the notion that a good time to get acquainted with anti-aging products is after your skin starts to sag and wrinkles have appeared, it's certainly incorrect! Aging begins from the age of 25, which is the recommended starting point for applying anti-aging products. It's important to keep in mind that skin conditions vary at different ages, so the focus of one's anti-aging routine will differ accordingly.

Q4 How should women of different age groups tailor their anti-aging routines?

25-30 year old, with slightly mature skin

For women with early signs of aging, it is important to focus on maintaining and supplementing the skin's moisture levels. Keep an eye out for ingredients with moisturizing properties such as sodium hyaluronate and hyaluronic acid, which also helps with the skin's absorption of moisture to keep it soft and supple. Anti-oxidants are also the first step in anti-aging care - skincare products with antioxidants are also good staples to have in your routine.

31-40 year old, with mature skin

Aside from moisturising, it's necessary to add an essence that promotes collagen regeneration as well as skin cell renewal to the routine.

41 years and above, with very mature skin

In addition to having basic skincare products with moisturising, anti-oxidant and sun protection properties, older women with mature skin will also require products that have anti-wrinkle ingredients, while also minimizing and smoothing the appearance of fine lines and expression lines. Consider skincare products with hexapeptides, which is the non-toxic equivalent to Botox; it reduces muscle contraction, relaxes the muscles, minimizes frown lines and effectively eliminates fine lines as well.

Q5 Are Cosmetic Procedures more effective than using anti-aging products regularly?

Botox is the most popular and well-known anti-aging cosmetic procedure offered in the industry. After injecting the botox (Botulinum toxin), the targeted facial muscles are no longer able to contract, which causes the wrinkles to relax and soften. This effectively helps to eliminate wrinkles. However, some of the side effects of botox injections include flu-like symptoms, drooping eyelids, difficulty in closing eyelids, muscle spasms and even neurological dysfunctions. While it's true that cosmetic procedures are able to solve aging concerns quickly and effectively, it also comes with a considerable amount of side-effects and risks. Regular care and maintenance, coupled with a suitable anti-aging skincare routine is the best way to maintaining youthful skin while delaying the effects of aging.

PAMPER YOUR MOTHER WITH THE GIFT OF HEALTH AND YOUTH

In a social test for the female undergraduates, the tester gave them a set of questionnaire and wishes to probe the answers from these young girls.

Those questions include:

- Are you willing to gain 30 pounds for the sake of others?
- Are you willing to risk your own life for the life of someone else?
- Are you willing to turn yourself into the person you least want to be for another person?
- Are you willing to disfigure your beauty for someone?

The answer is overwhelmingly rejected. Just imagine, it felt incredibly terrible to add 30 pounds for others! Willingly go under a knife for others? That is just insane! Turn yourself into the person you least want to be, it means you are losing who you truly are. Not to mention to disfigure your beauty for another person! The test ended with no suspense, except for a very small number of girls who were in love, few people chose to be willingly to do the things listed above that were in contrary to the girl's nature.

However, if you try to hand them the questions again in 10 years later when they have become someone's wives or mothers, the answer will be completely reversed. Because during this period, their status changed from adolescents to mothers, they understood that these tests were merely referring to the process of gestation, reproduction and breastfeeding children. For children, they did not hesitate to do all the things that they were most reluctant to do. As a woman, she could be weak, but as a mother, she is definitely stronger. After becoming a mother, many reserved and shy young girls were urged by their children's cries to dare to untie their bras under any circumstances for the breastfeeding act. This move is more appropriate than any adjective in the world to explain the greatness of the mother.

From the time we were born, the mothers transformed from a princess to a queen. Although many people would say that "Women's beauty has nothing to do with age," "Believe that you are beautiful," and so on, but mothers would think the other way. As the children grow up, the mother begins to become low in self-confident and feels that she is already a mother, no longer qualifies to be judged either she is "beautiful" or "not beautiful."

Have you ever been in this situation where you wanted to buy beautiful clothes for her, she will immediately retrain herself? She will make excuses like she is not confident with her aging appearance or the price is too expensive, but in fact she is reluctant to let us spend a penny. When we bought health products as gift for her, she will start to nag us, "I'm old, what's the point in buying all these?" But in turn, they will show off the filial act of their children to relatives, friends, and neighbours. This is very contradictory and "Love" is the main cause for this contradiction.

Back in the days when we were a child, mothers would buy us gifts during children's day or birthday to make us happy and now it's our turn to make her feel loved and happy. It coincides with the promotion for the 4th Anniversary of Return Legacy, now is the perfect time to pick a gift for mothers to deliver your heartfelt expression of love with amazing promotions too. Regardless of whether it is to help mothers to restore her youthful appearance or maintain a healthy body, this gift – the greatest gift of all – will help mothers to regain their confidence and make them feel beautiful once again.

Return Legacy extends the most sincere respect and blessing to all mothers who are full of love, forbearance, strength and courage!

女性应该
具备的

6大特质

“每一个成功的女性都清楚知道自身的价值、定位和长处。唯有在您认清自身的价值时，才能发现自己不为人知的优点和特质。每个女性都应该知道这一点。您的本质体现在你的外在美和内在美之中。您只需要知道怎么去散发自身的魅力和特质。”

SAM KHO

传承国际副总裁

不管是在事业还是日常生活中，我们免不了要经历重重考验甚至是苦难。但是有能力的女性时时都准备好迎接各种挑战，将它们一一克服，继而攀上更大更高的平台。

最成功的女性都拥有6个共同特质，让她们在人群中脱颖而出、获得属于自己的成功。每一天，我的所有行为和决策都与这6个特质息息相关，也可以说是这6特质造就了今天您们所看到的我。

1 接受凡事皆有可能

奥黛丽赫本曾经说过，凡事皆有可能。所以关键就在于您怎么抛开自我否决的想法，随时待命，紧抓住每一个稍纵即逝的机会。一个成功女性的眼里只看得见各种可能与机会，然后迈向成功之路。

2 拥有无比的自信

缺乏自信的人只会永远躲在角落里自艾自怜。不管负责任何一个任务，都应该对自己充满信心。当您散发出自信的光芒，就意味着您的内心足够坚定，再没有任何事情能够动摇和阻止你。

3 把风险当作是另一种挑战

生而为人，我们永远做不到心里毫无畏惧，但是我们可以把恐惧感减轻。每个人总会有一两个恐惧的对象或事情，我们应该正面迎战这些恐惧。不要把宝贵的精力浪费在逃避恐惧，试着培养内心的韧性，管理思想、情绪和行为，把自己重新调整成迈向成功的模式，一步步理性分析后勇于承担风险。

4 把缺点转化成优点

人无完人，只有当我们真正接受了真正的、有缺点的自己时，我们才能找到让自己改进的各种方法。俗话说，人若不知恶，何知善？您若不知道自己有哪些缺点，又怎么知道自己有哪些出色的地方呢？从今天开始，您应该想的是，怎么让自己每天都超越昨天的自己一点点，直到您把缺点转化成自己的亮点，成为人海中闪闪发亮的钻石！

5 持之以恒地努力

坚持与勤奋会给女性带来额外的收获。倘若您是一个上进、勤奋的人，您的坚持不懈总会得到别人的认同、赏识和信任。我们都知道罗马城非朝夕建成，伟业非一日之功，而是需要大量的、长久的努力和坚持。所以，您一定要谨慎以及坚定，成为一个成功女性。

6 活在当下

生活不可能永远一帆风顺、事事如意，有时候跌倒和失败是在所难免的，但是重要的是不要让它驻足太久，甚至主宰我们现在的的生活。试着活在当下，因为一味地缅怀过去只会让我们对生活越来越无助甚至迷茫。当一个人沉浸在过去，又对未来过分杞人忧天，那他就失去了努力让自己变得更好的机会。所以，切记要珍惜一切，活在当下。

每一名传承女性在不同的定义中都是美丽而完美的。我确信，有了内在和外在美，一定会让您的魅力由内至外地散发出来。在大家展翅高飞之前，我想跟所有传承女性分享一句话：

‘当您认知自身的闪光点时，哪怕是走在最黑的道路上您也依然自信、泰然，甚至还能照亮别人、为他人指引方向。’

Q1 您取得成功的动力是什么？

早期的动力源自生活，因为我想改善家人的生活，脱离贫穷的日子。我不希望家人在农历新年仍分隔两地忙于工作，连团圆饭都没办法一起吃。父亲来不及看到我今日的成就离开了，所以我希望在母亲老去以前完成梦想，成为家人与家族的骄傲。

到了后期，领导团队走向成功成了我最大的动力。我意识到身为领导人的责任，我希望我的团队是一级棒的。大家都在奋斗过程中逐渐成长，而我希望自己能与他们一起努力，直至大家取得财务和时间自由，过自己理想的生活。

Q3 分享您在迈向成功路途中曾获得的帮助和激励。

我很感恩也很幸福，因为公司的管理层从不吝啬给予我帮助和指导，让我从一个什么都不懂又缺乏自信的人逐步长大。我坚信“没有卖不出的产品，只有卖不出产品的人”，这信念让我屡创奇迹。当您习惯了当第一名，就会想当永远的第一名，不会让自己松懈和偷懒，把握每一次学习的机会。此外，团队里每位努力耕耘的伙伴，以及信任我的客户也是激励我的另一重要因素。经营这份事业最大的成就感就是帮助许多人改善生活，无论是他们捎来的好消息或是在这平台得到的爱与关怀，都是让我感到无比幸福的事。

Q2 是什么促使您取得今日的成绩？

① 信念

相信自己是完成目标的基本，如果连自己都不信，更遑论是别人？

② 学习

学习非常重要，每个人都必须靠努力学习、实践想法才能成为专业。

③ 专注

当您专注地做一件事就会全心投入，投入了必然能迅速成长。

④ 行动

行动是成功的关键，不要怕失败，努力一定不会白费。

Q4 您如何应对及解决经营直销事业过程中所遇到的困难或低潮？

初次接触直销行业时我可说是白纸一张，所有的色彩都是在这平台填上的。这是一个以人为本的行业，遇到的人非常多，当中一定会有喜欢您、崇拜你、嫉妒您，甚至是不喜欢您的人。而我是个较为情绪化的人，常被小事影响心情。当您经历了多次的心情起伏，就会学习到如何控制个人想法和情绪，当您把小问题都解决了，难题便不会像雪球般越滚越大。最重要的还是那句-把该做的事做好就行了。师傅常提醒我做人要不计较不比较，我一直铭记在心。

Q5 可否分享您的招商秘诀？

其实招商没有秘诀，只要清楚自己想要什么就行了。问问自己您要些什么？该做什么才能取得您想要的结果？慢慢地您会发现自己不断前进，变得专业、变得自信。当您具备这些条件时，就会找到与您频率相同、目标一致的人加入你的团队，并肩作战。

Q6 对您影响最大的人是谁？

对我影响最深的人莫过于我的师父、师公和总裁大人，他们是我初入直销行业第一接触的人，在这领域拥有20多年的经验。从一张白纸走到皇室总司令这事业巅峰，我一直谨记他们对我的教诲-不断学习、不断改变、不断成长，做自己喜欢的事，把领导人该做的事做好。

Q7 您认为经营直销事业与传统事业之间的差别是什么？

直销最神奇的地方就是倍增的力量。直销是一个非常好玩的行业，门槛低、时间自由又有领导人带领您，每天所见的人来自各领域各阶级，每一位都能教育您如何做人，所谓先学做人，再学做事。这里您不需要背景、学历、人脉或经验的支撑，就算从零开始一样能取得成功。在这里，我们只需要花大量的时间于学习和分享，无时间限制，并可运用多种方式经营，慢慢地壮大团队。只要您肯努力学习，一定能在最短的时间内创造巨大的财富，传承给下一代。

Congratulation!

至于传统事业，我们必须有庞大的资金链、管理知识和一定的经验才能经营成功。创业容易守业难，分秒必争让你难以边做边学，成功只能靠自己的力量去达成。管理不当甚至让人面对血本无归的困境，再说手停口停，时间上也欠缺自由，要找接班人或帮手也不是一件易事。此外，我们还必须不断创新，跟上时代步伐改变商业模式，真的一刻都没有办法停下。

Q8 您的下一个目标是什么？

我下一个目标就是和公司一起打入国际市场进军全世界，成为一个具有影响力的传承人。

优化 男性健康

Mandiva

进补或保养对女性而言较为普遍，但其实男性也需要保健，

因为他们也会面对内分泌紊乱情况，导致雄性激素失调的发生。雄性激素是促进男性生殖器官成熟和发育的激素，帮助维持正常性欲与生殖功能。雄性激素失调一旦遭忽略，可引发一些本可预防的疾病。

雄性激素以睾丸分泌的睾酮素为主，
睾酮素的主要功能如下：

- 1 睾酮素是建造男性骨骼的荷尔蒙，帮助维持骨质的密度、骨骼的矿物质，确保骨骼强健。
- 2 提供整体活力。因睾酮素帮助增加红血球数量，强化氧气运输功能。

- 3 提高肌肉质量。因睾酮素能增加肌肉的强度与肌肉纤维的直径。
- 4 维持性功能，生殖能力和消耗体内脂肪。
- 5 强化脑部功能和提升记忆力。

睾酮素水平失调症状：

头发脱落

集中力下降

情绪低落和烦躁

疲倦

睡眠障碍

性功能下降

身体出现变化，
如肥胖和骨密度下降

雄性激素失调可致 前列腺疾病

前列腺疾病如良性前列腺增生症（Benign Prostatic Hyperplasia-BPH）是男性常见健康困扰之一，多见于40岁以上的男性。据美国哈佛医学院 (HMS) 指出，BPH影响着50% 年龄60岁以及90% 年龄85岁的男性，其病因与雄性激素失调和年龄增长有关。睾丸所分泌的睾酮素会被体内组织转化为双氢睾酮，而双氢睾酮会导致前列腺增生。

许多男性对BPH缺乏重视，了解不足导致许多人将此病症视作正常的生理老化现象。

BPH的主要症状与排尿有关，因为前列腺增大会阻塞尿道，使膀胱功能逐渐衰退。

其主要症状如下：

排尿乏力

排尿异常

突然性急尿

难排尿

尿柱断续

排尿不干净

频尿

BPH也可能引致前列腺炎的发生。前列腺炎是指前列腺出现炎症，是成年男性最常见的疾病。一项在2003年于北美洲、欧洲和亚洲进行的调查发现，大约有15%的男性曾患前列腺炎。前列腺炎一般上都是因细菌感染导致，而受BPH困扰的男性会提高患上前列腺炎的风险。这是因为在无法正常排尿的情况下，残留的尿液有可能会尿道感染细菌，因而诱发前列腺炎。此外，患上前列腺炎对男性的性功能有一定影响。长期的慢性炎症会使前列腺液成份出现变化，影响前列腺分泌功能及精液的液化时间，导致精子活力下降甚至不育。

从医学角度来看，若一对正值生育年龄的夫妇在没有采用任何避孕措施的情况下，连续进行12个月的正常性行为却不能受孕，即列作不育。全球有7000多万对夫妇患有不孕症，而男性因素就占至少50%，使男性不育症成为具争议性的话题。

雄性激素失调的因素：

生活作息不规律

长期接触或暴露于
污染物和合成化学品

年龄增长

长期营养不良

家庭与工作压力过大

维持雄激素水平

针对男性健康而设的保健品Mandiva—蕴含多种天然植物成份如锯棕榈、红葛根、松树皮、淫羊藿和浓缩蛋白，主要帮助改善因雄性激素失调引起的相关疾病、调节雄性激素分泌及平衡体内的雄性激素水平。

Mandiva

主要成份:

1 锯棕榈 (Saw Palmetto)

- 帮助调节体内激素，缓解良性前列腺增生
- 维持前列腺正常体积，改善排尿问题

2 红葛根 (Butea Superba)

- 可促进体内雄激素增加，改善睾酮水平
- 有助于提高肌肉质量

4 淫羊藿 (Epimedium)

- 可透过刺激雄性激素的产生，提升夫妻亲密关系

3 松树皮 (Pine Bark)

- 具有增加精子数量和质量的功效

5 浓缩蛋白 (Protein Concentrate)

- 帮助提升免疫系统以预防病菌的入侵，大幅度优化男性健康

皮肤抗老，你知多少？

抗衰老是我们一辈子的工程，不能急于求成，掌握正确的护肤常识才能让抗老效果事半功倍。以下是关于抗衰老的相关问答：

Q1 抗氧化等于抗衰老吗？

皮肤老化主要有两个导因，一是与年龄增长有关，另一因素是肌肤氧化。紫外线，空气污染、压力、情绪紧绷都会使身体产生自由基，导致皮肤氧化，加速皮肤老化过程。因此，要达到抗衰老的效果，首先要抗氧化以抵抗自由基对皮肤造成破坏。

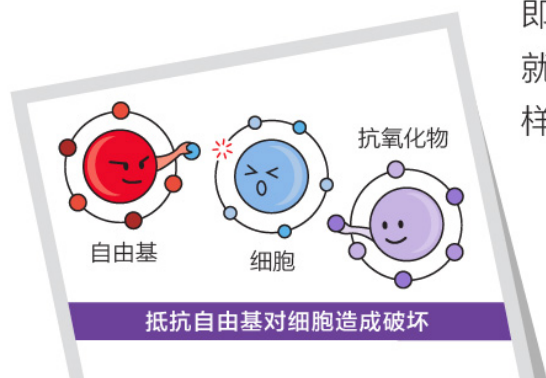

Q2 抗衰老一定要趁早吗？

女人过了25岁之后，身体的修复机制会开始衰退，胶原蛋白也会大量流失，让紧实肌肤逐渐松垮失去弹性，皱纹也悄悄地爬上脸上。老化症状开始产生以后才开始抗老和保养，那效果不比从25岁前就开始保养来得奏效，所以预防性抗老非常重要，即在老化迹象还没出现之前就开始使用抗老保养品，这样便可以延缓肌肤老化。

如果40岁之后还想听到朋友说“你看起来这么年轻”，就应该提早抗老化，否则你就会听到“你怎么30岁像40岁一样老”。

Q3 抗老化产品只适合熟龄肌肤吗？

若你认为等到皮肤松弛及出现皱纹才开始涂抹抗老化产品，这概念是错误的。25岁是老化的起点，所以要在这岁数或更早就开始使用抗老产品，当然每个年龄阶段肌肤的状态不同，所以抗老的重点也会不一样。

Q4 各年龄阶段的女人该如何选择抗老产品呢？

25 - 30岁轻熟女

轻熟女的抗老重点是加强保湿，保养品中的保湿成份如透明质酸钠或玻尿酸，能帮助肌肤吸收更多的成份，让肌肤保持水嫩细致。此外，抗氧化是抗老化的第一步。因此，含有抗氧化成份的保养品更是上乘之选。

31 - 40岁中度熟女

中度熟女老化防护对策，除了保湿，需添加能促进胶原蛋白再生和肌肤细胞更新的成份的精华液。

41岁以上的大龄熟女

大龄熟女除了做好基本保养程序如保湿、滋润、抗氧、防晒以外，需使用有蕴含抗皱纹、细纹和表情纹成分的护肤品。可考虑选用添加了六胜肽成份的抗老化产品，它属于非毒性物质却具有肉毒素全部功能，有助于减缓肌肉收缩的力量，让肌肉放松，进而减少动态纹的产生以及有效地消除细纹。

Q5 医美治疗功效比使用抗老化保养品来得快速与优越？

众所周知，肉毒杆菌是抗老化最热门的医美治疗。在注射了肉毒杆菌后，脸部肌肉处于麻痹和松弛状态，不会反复收缩和放松，进而达到消处皱纹功效。可是，注射了肉毒杆菌后会有一些副作用比如流感样症状，眼睑下垂、难以合上眼皮、肌肉瘫痪甚至是神经功能障碍等问题。医美治疗的确可以快速且有效地解决老化问题，但是相对的他的副作用和风险也会比较高。医美治疗绝不是抗老化的最佳方案，正确的保养搭配合适的抗老产品才是维持年轻肌肤，击退老化现象的不二法则。

爱在母亲节

把健康青春送给她

在一次针对女大学生的社会测试中，测试者拿出一份问卷，让这些正值妙龄的少女们回答。那些题目包括：

- 您是否愿意为了另一个人而增加体重30斤？
- 您是否愿意为了别人去挨一刀？
- 您是否愿意为了另一个人，将自己变成您最不想成为的那个人？
- 您是否愿意为了另一个人而变丑？

答案是压倒性否决的。为别人增重30斤，光用听的都觉得可怕！心甘情愿为了别人挨一刀？那是有病！将自己变成最不想成为的那个人，那得爱得多么没有自我！为了另一个人而变丑？想都别想！测试以毫无悬念的答案结束，除了极其少数正在热恋中的女孩以外，很少人选择心甘情愿做上述所列与少女天性相违背的事。

但是，如果将那暧昧的题目重新试一次，交到10年后已为人妻、为人母的她们手中，所得得答案则会颠覆性地逆转。因为这期间她们的身份从少女转变成为了母亲，她们明白了这些测试题不过就是孕育和生产并且哺乳孩子的过程。为了孩子，她们毫不犹豫地做了所有当年最不愿意做的事情。女子本弱，为母则刚。许多矜持而羞怯的少女在成为母亲以后，被孩子的哭声催促之下，事敢于在任何环境下解开自己的胸衣的。这个举动比世界上任何一个形容词更贴切地解释了母亲的伟大。

从我们出生开始，妈妈们就从小公主变成了皇太后。虽然很多人都说“女人的美丽与年龄无关”“要相信自己本来就很美”之类的，但是这样的想法，妈妈们是没有的。伴随着儿女的长大，妈妈开始变得越来越不自信，觉得自己已经是妈妈了，不能再以“美”或“不美”来判定了。

不知道你们有没有这种经历，和妈妈一起外出逛街，看到漂亮的衣服想买给妈妈时，她却像个拘束的小女孩。她会说自己老了不好看了，或者说价钱太贵，其实就是不舍得我们多花一分钱。给妈妈买了保健品，妈妈永远会碎碎念说“我都老了，买这些干嘛”。但是一转头她们又会跟亲戚朋友还有邻家的叔叔阿姨们炫耀说我的孩子对我就是好。妈妈就是这么矛盾的生物，而矛盾的主因是因为“爱”。

趁着母亲节来临之际，就像小时候每逢儿童节或生日，妈妈都会买礼物哄我们，现在该轮到我們哄妈妈开心了。恰逢传承国际4周年促销，是时候为妈妈挑选一份礼物，乐享超级优惠之余也能向她传递你的心意。无论是帮助妈妈恢复青春容颜或维持健康体魄，都能帮助唤醒妈妈的自信、让妈妈看到自己的美丽，这是送她最好的礼物。

**传承国际向所有充满慈爱、
隐忍、坚强以及勇敢的母亲们
致以最真诚的敬意与祝福！**
