# PERSONAL POSITIONING

**“ It is paramount important to establish a distinct market position to discern and differentiate the company’s core value in the high intense competitive landscape, to be distinguishable and palpable among consumers and prospects. Hence, increasing the likelihood of meeting the customer perceived value and promoting lifelong customer loyalty. For instance, Air Asia has drawn a clear market positioning which focus on low and affordable airfare. Starbucks sells beyond just coffee which promoting life style with comfortable and elegant ambient apart from home and office. ”**

**ALVIN HONG**  
THE PRINCIPAL OF RLEA

For our dynamic Legacians, what personal positioning should we strive for?

In this concern, it is explicit that not easy for everyone to clearly identify their market position. However, we could apply an uncomplicated way by identifying our core personality, disposition and strengths as our one of a kind value propositions distinctively – our unique personal positioning.

The business model of Direct Selling epitomises word of mouth marketing and relationship marketing. Therefore, majority of the transacted sponsored and sales with friends, relatives and acquaintances by way of sharing the user experiences and happenings. The emergence of modern internet and mobile internet technologies, this industry is expanding rapidly and prevalent than ever before. For instance, with Facebook, WeChat and other online platforms, we are much easier and able to extend our reach to downlines and potential prospects.

The key question is: why should others choose you? Why should others purchase from you? Why should others join and working together with you?

I have been told by innumerable Legacians that it is not difficult to sell Company's products due to the established brand image and reputation, efficacy of products and user positive reviews which has been developed assiduously with copious efforts by our Legacians. When Legacians repeatedly share their personal experiences offline and online, customers will tend to be more receptive when the offerings meet their need. This can clearly be seen during products sharing sessions.

Yet, some Legacians still find it challenging when it comes to business opportunities sharing with prospects. Why do some leaders find it a lot easier to attract distributors, while others only consist of consumers? My suggestion to attract potential distributors to join your network in Return Legacy is to clearly define your PERSONAL POSITIONING.

Personal positioning is a practice of marketing yourself and your career in the way that you are the brand. You have to utilize multiple channels such as social media, word of mouth and etc to highlight the areas of your expertise and relevant skills to others. Moreover, you have to identify your personal positioning with your unique personal experiences to begin your endeavour.

The question is, how do you perceive your life regardless whether you are a homemaker, employee or entrepreneur? If you feel like your life is rather boring, lost and bland, with no great achievements to speak of, kindly stop and observe. Is there nothing for you to feel thankful for? Or are you taking everything for granted and hence neglected delightful and wonderful things in life?

If you are a homemaker, you have the opportunity to spend more time with children and preparing meals for them. Have you ever thought of how enviable this lifestyle is for many working class? The fact that you are able to spare the time with your children and be present and do not miss their growing up stage, while developing your own Return Legacy career. We truly understand along the way, you will face all sorts of challenges and on the other hand, you are also reaping further rewards in the process.

Especially when you get to utilize what have been learned from Return Legacy Entrepreneur Academy (RLEA) where you could elevate and enhance self-value. You can apply special techniques of RLEA to improve interactions with your family members, such as how to express your thoughts and how to get along with others. With your acquired skills, you will certainly be able to cultivate harmonious relationships in your family. (If you do not understand this, please enrol to RLEA courses.)

What about if you are an employee, how do you contribute and add value to your company? Stop complaining about work. It doesn't matter whether you are working in an office or operating your own family business, remember, stop blaming and complaining as it is your chosen path. Think about it, at workplace, how do you contribute and add value to company and the people around you? Let say, if you were a teacher, apart from educating children by guiding them in acquiring academic knowledge, you are also responsible to instil moral values. Isn't that a very valuable aspect of life? The unequivocal value which you have articulated will embedded deep down into their heart.

If you are an entrepreneur, how could your company positioning create benefits to others?

So, it is imperative to identify a clear and distinct personal positioning for yourself. It may encompass the pursuit of life excellence, lesson hardships in life and elevate the value of life etc. (Details will be shared in the Ruby Legacy course.)

As you cherish your daily roles and responsibilities while sharing how Return Legacy can change your life, this prevailing lifestyle will be the key factor to attracting others to embrace the business together.

For the example as a full-time homemaker, a photo of your child taking an afternoon nap was shared on social media with a caption: Looking at him sleeping so soundly has made me grateful for my wonderful life, which allows me to be with him as he grows up while running my own business at the same time. Thanks to Return Legacy and I won't be out of touch with society and I can also contribute to the household finances. #HappyEntrepreneurialHomemaker

What will they feel, homemaker, working class or entrepreneur, after having seen the above post?

Naturally and habitually, no one will decide to join your Return Legacy business merely by reading this write up. However, it clearly defining your personal positioning while you are sharing the business opportunities.

More importantly, Return Legacy is desirous of assisting you to achieve much more than your career success, by realizing your fulfilling path and career motivation.

Let us grow together, work with pleasure and life is a joy with integrity and honesty.

# RUBY LEGACY

---

## 2019

The 2-day-1-night Ruby Legacy (West Malaysia) has drawn to a close amidst generous amounts of laughter and warmth. Through this intensive course, the trainers set forth in delivering a key message to all Legacians – that leadership is not an innate ability, it requires continuously learning and developing with hard work.

Through a meticulously designed and interactive course by RLEA's principal Alvin and Mr. Albert, Legacians were taught ways to easily build positive relationships, leadership methods, sales skills, and practical financial management skills. We hope all Legacians will be able to practically apply what they have learnt from the trainers' teachings and sharing.

The next Ruby Legacy will be organized in **East Malaysia on 13th-14th April 2019!**
