Return Legacy

A METAMORPHOSIS OF MIND AND SPIRIT

Metamorphosis is a dramatic physical process which many animals undergo. Some of these animals progress through larval and pupal stages before they finally turn into fully grown animals that look so different from what they once were. Though it may seem ordinary to humans, this process of metamorphosis is actually a natural marvel forged over millions of years of evolution.

Let's consider how a caterpillar turns into a butterfly, for example. As the creature undergoes this process, its physical form changes almost every single day as it first forms a chrysalis, then continues to grow within. Eventually, it makes its way out of the chrysalis once it has turned into its adult form - the butterfly. Although humans might not undergo the physical process of metamorphosis, we can experience a form of "metamorphosis" of our own as we mature and learn more about ourselves and the roles we have to play in our lives.

Metamorphosis is an excellent metaphor for our own personal growth. Every day, we should strive to be a better person than we were before.

The metamorphosis of a butterfly involves the total reshaping of its body. In the same way, unconventional and sometimes even radical approaches are necessary for personal growth and success. However, as long as we persevere, someday we will achieve a breakthrough of our own and reap the rewards of unlimited possibilities.

RETURN LEGACY: KICKSTARTING THE PATH TO SUCCESS

Everyone dreams of success in life, but it takes effort, persistence, and willpower to achieve it. Success isn't a miracle that happens overnight - we have to define our goals and pursue them with sheer determination and a fervent passion. As we strive towards our goals, we can take advantage of limitless opportunities to learn, change, and grow. This will make us better people in every way.

Return Legacy believes in making everyone's lives meaningful and honorable by providing a platform for LIMITLESS growth. This gives anyone who is interested limitless business opportunities, bringing together those who want to create a fulfilling career and take control of their career's destiny as they seek a limitless future.

Though the road to success may be difficult, the satisfaction obtained upon achieving that success will make everything that came before worthwhile. The journey towards success also changes our lives for the better. With these principles in mind, Return Legacy has established three different ranks for Legacians to aspire towards as they pursue their goals.

RUBY MANAGER BUILDING A CHRYSALIS

Every new Legacian should set a target to pursue. It's never too early for newcomers to take active steps towards their goals and achieve their first milestones.

New Legacians start out as Ruby Managers. Though progress from this point may seem to be a daunting task for them, they should not be disheartened. With effort, drive, and self-belief, higher ranks can easily be attained.

Any new Legacian who is able to visualize the end goal, move towards it through workable methods and tangible actions, and find ways to overcome difficulties and challenges along the way will soon progress to this rank. If you're new to the company but do all of these, then just like a caterpillar in the early stages of metamorphosis, you'll be able to see the beginnings of something astonishing!

DIAMOND DIRECTOR DEVELOPMENT BENEATH THE SURFACE

Legacians at the rank of Ruby Manager must not become complacent. They must instead continue to strive for greatness and work with the utmost vigour and dynamism. The more they continue to do so, the closer they will get to the next rank.

Diamond Directors rank a tier above Ruby Managers. Any Ruby Managers who wish to take the next step and become a Diamond Director must understand what it takes to do so. Passion, dedication, optimism, and zeal - all character traits necessary if one is to reach the rank of Diamond Director.

If you've set a goal to become a Diamond Director, chase it with all your might. You'll set yourself up for success today and in the future as you continue to develop your skills, putting you a step closer to your "butterfly form".

CROWN AMBASSADOR TEARING THROUGH THE VEIL

The rank above the Diamond Director is that of the Crown Ambassador. Of course, those who would claim this prestigious honour must endure many trials and tribulations. However, by persisting, handling challenges deftly, and refusing to surrender in the face of adversity, a Diamond Director can take this final step and become a Crown Ambassador.

Similar to how a butterfly showcases its full glory at the end of the process of metamorphosis, so you will embody success and victory through your brilliant achievements. You'll have rewritten your destiny and taken your place at Return Legacy's top table.

METAMORPHOSIS

THE INFINITE LEGACY

The theme of Return Legacy's Paragon Night Event in 2022 is "Metamorphosis: The Infinite Legacy". It's our belief that every Legacian can overcome the challenges ahead of them and undergo a true metamorphosis of mind and spirit, leading to continuous personal growth and self-improvement. We could not be prouder of our Legacians who have grown and developed so much.

This "metamorphosis" may be challenging, but it leads to tremendous growth. Legacians can expedite this "metamorphosis" through Infinite Legacy, a platform designed to provide limitless development, learning, opportunities, and possibilities, paving the way for a limitless future.

As Legacians grow and develop in their role, they can use the platform to note their personal highlights of their time here. This allows them to look back on memories of a fulfilling and memorable life experience as a Legacian.

We at Return Legacy consider ourselves fortunate to participate in every Legacian's growth and maturation in their roles. As the days pass, we seek to progress as we cooperate to create a healthier, brighter future.

FOR AN INFINITE LEGACY

As much as we try to take good care of our skin, the effects of age upon it will nevertheless become obvious eventually. The older we get, the less supple and elastic our skin will become. Crow's feet and wrinkles will become apparent as well.

And who knows - if we're not careful, our skin might age so quickly that folks on the street may call us "grandpa" or "grandma" even when we're not even close to that age! Not good...

Fortunately, there's a solution for this. One of the very best ways to keep our skin in its peak condition is by increasing the body's total collagen content. We can do so by adequately consuming collagen.

COLLAGEN

THE FOUNDATION OF ATTRACTIVE SKIN

COLLAGEN: THE BASIC FACTS

Collagen is the human body's most abundant structural protein; it comprises around one-third of all the protein in the body. Collagen accounts for approximately 75% of the dry weight of the skin. Collagen is mainly found in the dermis, the middle layer of the skin which lies beneath the epidermis. It serves to strengthen the skin cells of the dermis. Collagen in the dermis works in tandem with elastin, another protein which allows skin which has been stretched to regain its shape. The two proteins form an intricate network which preserves the skin's general condition.

A decline in the body's collagen content is readily visible on one's skin. Not only does this decline result in lessened skin elasticity and accelerated skin aging; it may even lead to inadequately moisturized skin, wrinkles, sagging, fine lines, and acne, among other skin-related issues.

In addition to the skin, collagen exists in the tendons, cartilage, bones, and connective tissue. Collagen provides a significant amount of structural support and positively impacts one's immune response, tissue repair, and cellular function. Should the body be unable to adequately replenish bodily collagen as its content gradually declines, physical problems such as joint pain, osteoarthritis, slow wound healing, inflexibility, loss of muscle mass, and even issues with digestion may arise.

COLLAGEN AND ITS AGE-RELATED DECLINE

The amount of collagen in the body declines by approximately 1% every year after a person turns 20. While this rate is constant in a man's body, a woman's body doesn't lose collagen in this same way. This is because women may lose up to 30% of their bodily collagen during their menopausal years as a result of the effects of sex hormones such as estrogen and progesterone.

Although every adult body is in a constant state of collagen decline, this decline can be slowed by avoiding exposure to ultraviolet radiation and tobacco smoke while also keeping one's stress levels manageable.

COLLAGEN

The consumption of collagen may take place through foods or supplements. Some common foods which contain collagen include meat skins and tendons, bone broth, egg whites, citrus fruits, and tomatoes, among others. However, the collagen which is obtained through food has a low level of bioavailability; the body cannot absorb this collagen directly because of its high molecular mass of 300,000 daltons. Therefore, collagen consumption through food does not guarantee that new collagen will be formed within the body.

Whole collagen proteins are to be broken down into peptides or amino acids before absorption. Collagen supplements circumvent this step as they are broken down beforehand, making them much more bioavailable.

CONSUMPTION

GIVING THE SKIN A FRESH LUSTRE

REOXlife PRO Collagen Peptides, the result of a collaboration between Return Legacy and Professor Masahiko Tsuchiya, the Principal of MMNT, contains collagen peptides extracted from fish skin. These peptides are highly absorbable as their molecular mass of 1,000 daltons is extremely low. Thus, these peptides are able to penetrate every portion of the body and skin.

Clinical trials showed that those who took Collagen Peptides for eight weeks were able to reduce the wrinkles around their eyes by 33%. They also reported the smoothening of the skin around the cheeks as well as increased skin moisture. These effects were most pronounced in those aged 30 or older.

Just five to six grams of REOXlife PRO Collagen Peptides every day is all you need to give your skin a youthful, vibrant sheen.

Collagen is vital for a healthy body and skin; REOXlife PRO Collagen Peptides is exactly what you need for that

COVID-19

MISCONCEPTIONS STILL AROUND

To the joy of people all over the world, the Covid-19 pandemic has been subsiding at a rapid rate.

As a result, life in most countries has largely returned to what it had been before the pandemic. One might assume that after going through everything that the Covid-19 pandemic entailed, there would no longer be any misconceptions or misinformation about the disease among the general public. Regrettably, that isn't true at all. Some people continue to believe falsehoods about this virus.

There are some who believe that once a person contracts Covid-19, that person can never contract it again. These people assume that Covid-19 works in much the same way that illnesses such as chickenpox, measles, and rubella do. During a person's lifetime, those diseases can only infect that person once; after doing so, the person gains lifelong immunity to them.

However, Covid-19 does not work in this way. Although a Covid-19 infection does bestow immunity upon its sufferer, this immunity is temporary rather than permanent. Subsequent Covid-19 infections tend to be milder than first ones and are often asymptomatic; however, this is not always the case. ⁽¹⁾ Some health experts even believe that the majority of people will contract Covid-19 not just once, but multiple times over the course of their lives. ⁽²⁾

Some people assume that receiving a vaccine against Covid-19 will make them immune to the disease for the rest of their lives. Once again, they cite other illnesses as evidence. Polio, smallpox, and tetanus are examples of diseases against which the vaccinated have lifelong protection. However, these people are also incorrect.

The immunity provided by a Covid-19 vaccine is merely temporary. According to official statistics, a vaccine's ability to protect a person against Covid-19 declines by between 20% and 30% within the first six months of its administration. ⁽³⁾ Additionally, the dominant and highly infectious Omicron variant has a higher level of resistance to vaccines than do prior Covid-19 variants such as Alpha and Delta. ⁽⁴⁾

Still some believe that everyone who suffers from Covid-19 will have the same experience following recovery. Some claim that what is now called “long Covid” is merely a hoax, while at the other extreme, others claim that every person who has had Covid-19 will experience long Covid. The truth, however, lies in between these two opposite viewpoints.

Long Covid, characterized by symptoms including fatigue, breathlessness, and chest and joint pain, is a genuine health concern which may afflict any person who has ever suffered from Covid-19. However, not everyone who has had Covid-19 will also experience long Covid. Statistics show that around 30% of everyone who has contracted Covid-19 will go on to suffer from long Covid. ⁽⁵⁾

There is no sure-fire way for anyone to ensure that they will never get Covid-19. That being said, one of the best ways to remain protected against this virus is by strengthening the immune system.

The immune system is the body's primary defense mechanism against all illnesses including Covid-19. Thus, the stronger a person's immune system, the less likely that person is to contract Covid-19.

No singular method to make a person's immune system stronger exists. The strengthening of the immune system can only be achieved by combining a variety of approaches and lifestyle changes. These include remaining active, consuming a balanced diet, getting adequate sleep, avoiding tobacco, and limiting or avoiding alcoholic beverages. Anyone who does all of the preceding is far less likely to not only contract Covid-19, but also any other infectious disease in existence.

PART OF TRIFECTA OF HEALTH

RETURN LEGACY'S

WHAT DOES PHYSICAL HEALTH MEAN TO YOU?

There are many facets to physical health. Some people might prioritize protection against the effects of free radicals. Others might consider proper cellular function as the most important element of physical health. Still others might focus on the protection of the immune system. In any case, each of those are important determinants of a person's physical health.

REOXlife POTENT — Loaded with Crucial Antioxidants

Antioxidants are critical for the promotion of physical health because they work against the dangerous effects of free radicals. Free radicals can be generated by ozone, tobacco smoke, air pollutants, industrial chemicals, and even X-rays.

Excess production of free radicals in the body can cause oxidative stress which accelerates the aging process. Even more worryingly, this same overproduction may lead to the development of severe illnesses and physical conditions such as central nervous system diseases, cardiovascular disease, diabetes, and degenerative diseases. Antioxidants counteract these negative effects by neutralizing free radicals, thus minimizing the damage which the body may suffer.

Therefore, it's important to ensure that the body has all the antioxidants it needs. And what better way to do that than with REOXlife POTENT? REOXlife POTENT reduces the impact of free radicals and repairs damaged cells. This supplement contains the antioxidant-filled cantaloupe extract as well as wheat protein extract which protects antioxidants against gastric acid and facilitates their absorption.

Additionally, REOXlife POTENT contains Return Legacy's very own Micro-Mineralised Nutrient Technology (MMNT). Loaded with negative hydrogen ions, MMNT not only fights free radicals; it also repairs cellular damage and alleviates inflammation. Therefore, someone who regularly consumes REOXlife POTENT will experience greater physical health and a stronger and more functional immune system.

The greatest threat to our planet is the belief that someone will save it.
- Robert Swan

To reduce our carbon footprint and play our role in saving the planet, we've introduced new eco-friendly packaging! Our new packaging is not only much greener; it's also aesthetically appealing.

ONE PACKAGE, THREE PRODUCTS FOR OPTIMAL PHYSICAL HEALTH

We at Return Legacy have taken these ideas about health a step further by putting REOXlife POTENT, REOXlife Mediterranean Gold PLUS, and REOXlife iMgard into our i30B package.

When taken together, these products strengthen the immune system, shield the body against free radicals, and repair cellular damage. i30B is a one-of-a-kind package which elevates a person's physical health to new levels.

REVAMPED PACKAGE Take a look at the REVAMPED i30B PACKAGE!

Return Legacy wants people of all genders and ages to experience immaculate health. That's why we've added REOXlife PRO MANDIVA, REOXlife PRO W+, and REOXlife PRO W+ GOLD to our i30B package. Thanks to these additions, ANYONE can take their health to its peak level!

What's more, in order for you to care for your body inside and out, we've also added REOX Series H+, 2° Redoxy Essence, and 2° LeGain to the package. By looking after your inside and outside, your general condition will be absolutely ideal!

PROTECTING HEALTHY CELLS

Containing extracts taken from 22 different fruits and vegetables, REOXlife Mediterranean Gold PLUS is a product created according to the principles of the Mediterranean diet. REOXlife Mediterranean Gold PLUS also comes with a formulation known as LePheno. LePheno was jointly developed by Legacy Science and Fytexia, a France-based life science company specializing in nutrients for healthcare products.

LePheno promotes the body's production of superoxide dismutase (SOD), an important antioxidant enzyme. SOD serves to protect healthy cells, strengthen the immune system, reduce the effects of oxidative stress on the body, and decelerate the aging process.

FOR IMMUNITY AS STRONG AS A VIKING

A healthy immune system is necessary for total physical health. This is because immune health is important for fending off illnesses and diseases.

For this, we now come to the third and final product of i3OB: REOXlife iMgard. REOXlife iMgard contains M-Gard®, resveratrol, and vitamin C. These substances work together to enhance the body's defense mechanisms against pathogens such as bacteria, viruses, and fungi.

Extracted from baker's yeast beta-1,3/1,6-glucan, M-Gard® is the result of top-tier scientific innovation adhering to stringent Norwegian quality standards. Its unique molecular structure facilitates the immune cells' proper response to infections. It also works well to make one less susceptible to illness, quash emerging infections, and relieve allergies.

Resveratrol, meanwhile, has anti-inflammatory and antioxidative properties. Vitamin C is necessary for the support of antioxidants' activity in the body.

MAKE
Domestic Labour A CINCH
WITH THESE 4 PRODUCTS

*“Hatred of domestic work
is a natural and admirable
result of civilization.”*

- REBECCA WEST

You may laugh at this quote, but is there not some truth behind it? After all, none of us want to take time out of our daily lives to keep our homes clean and tidy. This especially applies to those of us who have to do it all ourselves!

Cooking, washing, rinsing, cleaning, and so much more - and often, all of that after a busy day at work, too...

However, everyone knows that domestic labour is of prime importance if we are to live comfortable, satisfying lives.

According to Wallace T. Wattles, “it is essential to have good tools, but it is also essential that the tools be used in the right way.” This is true of domestic labour as well; hence, Return Legacy has introduced the HOMElife Cleaning Package to make these daily tasks mega-simple! This package includes NO GERM Floor Cleaner, NO GERM Spotless All Purpose Cleaner, NO GERM Laundry Powder, and Sensitive Skin Dishdrops - all products proven to work exceptionally well.

NO HOMELife **'GERM**

**FLOOR
CLEANER**

Destroyer of *Bacteria*

NO GERM Floor Cleaner's active ingredient is benzalkonium chloride (BAC) which kills 99.9% of bacteria upon contact. BAC is also ideal for the removal of dirt and oil stains from floors. Bedroom or bathroom floors and even deep corners - NO GERM Floor Cleaner cleans them all! It gets rid of stains on marble, terrazzo, wooden, and glass floors, making them truly spotless without causing any surface damage!

The “Swiss Army Knife” of *Cleaning Tools*

Just a few splashes of the highly versatile NO GERM Spotless All Purpose Cleaner will get almost any cleaning job done in a flash. It produces outstanding results when used on furniture, cabinets, floors, and even kitchen walls. NO GERM Spotless All Purpose Cleaner is completely safe, perfect for removing oil stains and dirt without any intense scrubbing; it also doesn't leave behind any residue. On top of that, it even repels insects!

NO HOMELife **'GERM**

**SPOTLESS ALL PURPOSE
CLEANER**

NO HOMELife 'GERM

LAUNDRY
POWDER

Better than What Any Laundromat Provides

The highly concentrated formula found in NO GERM Laundry Powder penetrates the deepest recesses of textile fibers to remove stubborn stains and kill 99.9% of all bacteria. What's more, it can even remove strong odors and give clothes long-lasting freshness even without pre-soaking the clothes! Suitable for indoor and outdoor use alike, just a small amount of NO GERM Laundry Powder is needed for it to take full effect.

Easy On the Hands, Tough on Dirty Tableware

Sensitive Skin Dishdrops is a dishwashing liquid specifically formulated to be gentle on sensitive skin. Containing a formula infused with notes of citrus, Sensitive Skin Dishdrops' first-class cleaning capability ensures that users' arms won't fatigue from tedious cleaning of tableware*. A few drops of Sensitive Skin Dishdrops provide high-quality, long-lasting cleaning by effectively dissolving all manner of grime and grease on tableware, saving much time, effort, and water!

Sensitive Skin Dishdrops is **ONLY** suitable for use when washing tableware **BY HAND. DO NOT USE SENSITIVE SKIN DISHDROPS IN A DISHWASHER.**

SENSITIVE SKIN
DISHDROPS

MAKING THE BEST POSSIBLE USE OF **RETURN LEGACY'S MARKETING TOOLS**

There are a great many ways to achieve business success; this is especially true for those who combine offline and online methods to do so. In fact, the use of high-quality online content which appeals to the masses is used by many distributors to attract customers and beat their business rivals by doing so.

Distributors, including Legacians, are capable of reaching more people through creation, production, and editing of marketing and advertising material related to both content and social media marketing. That's why Return Legacy provides Legacians with several free content marketing tools. They will help Legacians fulfill customers' desires for fresh, appealing content. Every tool and resource we provide can be used by new and long-serving Legacians alike to create outstanding content and build a top-class brand.

SHARE LEGACY

Share Legacy is Return Legacy's one-stop information platform providing comprehensive business support, social support, and content support for all Legacians. It provides users with information about business development, e-commerce strategies, and customer engagement. Share Legacy also contains a host of information spanning topics such as company profiles, product information, social media content, business tools, sponsorship tools, and dealer guides.

Additionally, Share Legacy provides users with several quizzes and mobile apps to keep them informed about their physical condition.

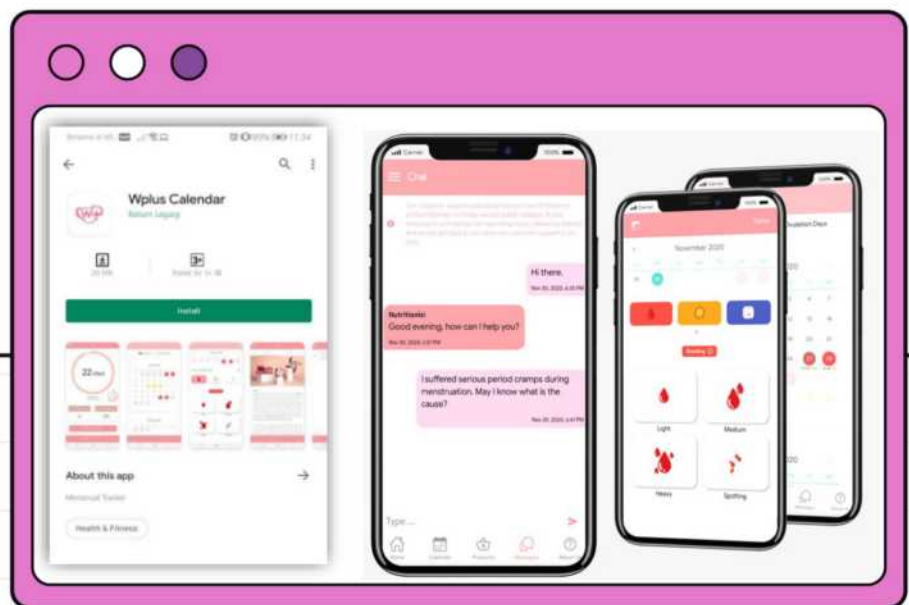

W+ CALENDAR

The W+ Calendar is to be used by women who plan to monitor their periods. They can use it to verify the normality of their periods and note if any anomalies exist. Issues such as abnormal blood volume, emotional instability, physical discomfort, and premenstrual syndrome (PMS) can be logged.

W+ Calendar can also be used to set up personal consultations with Return Legacy's professional nutritionists where they may ask any questions about menstrual issues or products. Users may also set up reminders to take REOXlife PRO W+ or REOXlife PRO W+ GOLD in the W+ Calendar.

Now that we've discussed the marketing tools available to every Legacian, it's all up to you now. Make full use of them and inject your own creativity and flair - you can win over so many more customers with these tool

LEGACY NEWS

2022 JUNE

**DID YOU KNOW?
ONE BLOOD DONATION OF
450ML CAN SAVE UP TO
THREE LIVES.**

BLOOD DONATION EVENT

In another selfless act of service to the community, Legacy Care Association Malaysia (LCAM) recently teamed up with the National Blood Centre to organize a blood donation event. Both blood donation "rookies" and "veterans" alike showed up to provide their valuable contributions of priceless blood. Every drop of blood donated puts a person in need one step closer to long-term survival.

"Alone we can do so little; together we can do so much." - Helen Keller

RETURN LEGACY'S 8TH ANNIVERSARY

Return Legacy marked its 8th anniversary in 2022 and commemorated it with a celebratory event to which many Legacians were invited. It was a time for every Legacian to reflect on how they had grown within and alongside the company during their time here. We believe that by working with integrity and passion, all Legacians will fulfill their dreams at Return Legacy by exhibiting the company's primary values.

INCENTIVE TRIP TO CLUB MED CHERATING PAHANG

This year's company incentive trip was to the Club Med resort in the picturesque coastal town of Cherating, Pahang. We trust that every Legacian who attended thoroughly enjoyed themselves and, upon their return to the office, will continue striving for excellence. By doing so, a brighter future will become reality. There is a glorious future on our horizon - all we have to do to get there is work with all our might!

OFFLINE EVENTS

Return Legacy held several offline events in June 2022; some were at Return Legacy HQ while others were held in various locations across Malaysia. We were pleased to see that our events held away from the HQ received such a rousing response - it showed us that our events yet to be held will almost certainly see massive turnouts as well!

RETURN LEGACY MALAYSIA'S INAUGURAL GROUP OF BUMIPUTRA DISTRIBUTORS

Return Legacy values and embraces racial inclusiveness and acceptance of people of all backgrounds. With these principles in mind, we recently welcomed our first-ever group of Bumiputra Legacians into our company's distributor network.

Return Legacy would like to extend our warmest congratulations to these deserving distributors. It gives us much pride and delight to witness the success of our Legacians.

EID AL-FITR (HARI RAYA AIDILFITRI) CELEBRATION

Return Legacy held a Hari Raya Aidilfitri celebration on May 13, 2022. Among the more than 30 attendees, many donned traditional clothing; an impressive spread of food was also provided. There were also games, talks, and product experience sessions which allowed everyone to relax and unwind.

Through this event, Legacians were able to interact with other distributors, employees, and management in an informal setting while solidifying the spirit of cooperation and unity within the company.

TO ALL OUR MUSLIM LEGACIANS, "EID MUBARAK".
