Return Legacy

YEARS OF PERSEVERANCE RETURN LEGACY TRANSCENDING TO THE EXTRAORDINARY

As time flies, Return Legacy has entered its ninth year, yet memories of the preceding eight years remain vivid in our minds. Years of strenuous effort have contributed to an awe-inspiring chapter in our history. Through our unwavering passion and diligent efforts, we have spent innumerable days building the groundwork for success, which has led us to achieve exceptional outcomes.

As we celebrate our 9th anniversary, Return Legacy aspires to join hands with you once again to create new milestones.

The number “9” holds a mystical significance. It symbolizes not only the highest number in single digit, but also the beginning of a new cycle that continues to the next, creating an endless loop where the end and beginning converge. If you multiply 9 by any other number and add them up, the result will always equal 9. For instance, $9 \times 3 = 27$, and $2 + 7 = 9$. Similarly, $9 \times 6 = 54$, and $5 + 4 = 9$. This pattern persists for any multiplication of 9, and so on.

Our life journey begins at birth, but it is not always an easy road, as challenges are inevitable. However, every closed door presents a new opportunity for us. Life may not always be smooth sailing, challenges are temporary and do not define our future. Instead of perceiving failure as an end, we should embrace it as an opportunity to start anew and explore alternate paths to achieve our goals. As life is cyclical, every end is also a new beginning.

The path we traverse in life is analogous to the numeral “9”, which, upon multiplication, unfailingly concludes with the same digit after adding the resulting figures. This analogy reflects the cyclical nature of our lives. Even after reaching an endpoint, we must be willing to start afresh and embark on new journeys to delve into unexplored territories. The growth in our lives is not a static image but rather an ever-changing cycle of evolution. The genuine significance of our development lies in the interplay between the “endpoint” and the “starting point”.

Despite being born ordinary, we can achieve extraordinary results by bravely facing challenges and constantly venturing into the unknown. Our lives resemble the number “9” - seeming ordinary, yet full of infinite possibilities. The key to bringing brilliance into our lives lies in persistent pursuit of our life’s journey, which will unveil the infinite possibilities of our being.

WRITING AN EXTRAORDINARY LIFE WITH PERSEVERANCE AND ZEAL

Irrespective of our identities as employees or busy homemakers, the majority of us engage in mundane jobs on a daily basis.

Ordinary jobs and people may seem to confine individuals to an unnoticed and unremarkable existence in a commonplace world, yet they possess boundless potential and endless possibilities. The indomitable spirit of hard work and unwavering belief in their ideals form the backbone of our society. They bear the hopes and aspirations of countless people, and their constant efforts and sweat bring intangible influence to the entire society, making them an indispensable force.

With persistence and enthusiasm, ordinary jobs have the potential to bring about extraordinary achievements. Likewise, ordinary individuals can lead extraordinary lives by unlocking their full potential.

The best among these ordinary individuals are the Legacians who have charted their own course towards an extraordinary future with their efforts and wisdom. They refuse to settle for an ordinary life and instead, discover their place and value through perpetual pursuit and challenges. Their unwavering dedication is what propels Return Legacy towards sustained growth and development.

Although life may seem routine, what we strive for within it is anything but ordinary. The Legacians have embraced Return Legacy's mission in their business endeavors, leaving their mark through unyielding effort. With persistence and devotion, they navigate every path and conquer every peak. Despite being ordinary individuals, each Legacian has the potential to create tremendous value for others by improving their quality of life, building their perfect living space, and regain their beauty, health, and self-confidence.

NINE YEARS OF HARD WORK YIELD DREAM COME TRUE

At Return Legacy, Legacians pursue extraordinary dreams within an ordinary environment that holds infinite possibilities. They approach every task with sincere dedication, meet every challenge with perseverance and enthusiasm, and let their light shine among the ordinary. Fueled with their tireless spirit, Return Legacy has propelled to become a business of great potential, offering boundless possibilities and a promising future.

The remarkable achievements of every Legacian in an ordinary setting have contributed to the mission of Return Legacy amassing immense power. They persevere in order to provide themselves and those around them with a better quality of life. Despite their diverse backgrounds, they share a common goal and determination, bringing warmth and beauty to everyone around them. Through nine years of trials and tribulations, the unyielding beliefs of Legacians have created miracles for Return Legacy, resulting in impressive resumes and penning an extraordinary and splendid chapter in our lives.

Do we still have the bravery and drive to study new knowledge and fields after half a century?

“
WE NEED TO GET OUT OF OUR
COMFORT ZONE AND TAKE ON
MORE DIFFICULT CHALLENGES.”

— This is Dr. Lee Siew Keong's mindset and faith as he journeys through life.

As you enter the Return Legacy office, your attention will be drawn to a poised and dependable man sitting at a sizable desk. He exudes an air of genuine concentration and seriousness as he delves into his PhD thesis, leaning slightly forward. Afterward, he steps out of his office and over to a fish tank, surrendering to the captivating allure of the vibrant fish and mesmerizing corals. With delicate grace, he bestowing tender care upon these tiny lives, as if offering a harmonious trade of serenity for his devoted efforts.

In this unique space, time seems to halt as the man's mind and body become fully immersed in a miniature natural ecosystem. His tranquil and concentrated stare and deft and capable hands attend to every need of the fish, meticulously tending to this exquisite and minute world.

Amid a serene setting, he reflects with prudence and care, steadily gathering all that belongs to him. You may be pondering, who might this person be?

This person is none other than Dr. Lee Siew Keong, the founder of Return Legacy.

DR. LEE SIEW KEONG'S LIFE STORY CREATING EXTRAORDINARY LEGENDS

The tasks of aquaculture and working on a PhD thesis are challenging endeavors that require significant amounts of time and energy for successful outcomes. As a founder of a thriving corporation, one may question whether Dr. Lee Siew Keong has the capacity to tend to these responsibilities.

"It's simply innate in me to put forth my utmost effort in pursuing my goals."

"It's a philosophy I live by," said Dr. Lee Siew Keong with resolute conviction and a tranquil tone. His words convey a strong and unwavering determination.

Three years ago, when the pandemic swept across the world, people were compelled to stay at home for prolonged periods, resulting in novel challenges and experimentation with new activities, such as cooking or working out at home.

Amid this period, Dr. Lee Siew Keong set forth a challenge for himself, consistently pushing beyond his limits, exploring his capabilities, and endeavoring to reach new heights of excellence.

Embarking On A Research Journey Across Knowledge Barriers

Motivated by his desire for knowledge and a willingness to share his expertise in the direct selling industry with others through education, Dr. Lee Siew Keong embarked on a journey to pursue a PhD. However, the process of producing a PhD thesis was fraught with challenges and obstacles.

"Obtaining a PhD is a profound journey in and of itself," said Dr. Lee Siew Keong. "During this time, I faced numerous obstacles and challenges, as well as made multiple mistakes, errors, and failures, but these experiences ultimately made me stronger and wiser."

Dedicated to his pursuit of knowledge, Dr. Lee Siew Keong's three-year journey to obtain his PhD was one of the most challenging and fulfilling experiences of his life. Despite facing various obstacles and setbacks, he tirelessly studied and honed his professional skills day and night. His unwavering determination and hard work not only brought him closer to his goals, but also left a lasting impact on his personal growth and the passage of time.

Adolescent Words And Phrases

\ Carry Significant Life Lessons

"Do you know why I will continue to challenge myself constantly? It is all because of a sentence my son said," Dr. Lee Siew Keong said as he slowly began to talk, with a smile and a trace of pride in his tone.

"When he was 10 years old," Dr. Lee continued, "my son asked me, 'Dad, what is life?'"

Pondering the simple question that contained significant wisdom.

After some thought, he then replied, "Life is what we leave behind."

Throughout our lives, we have journeyed through the trials and tribulations of the world, leaving behind not only the marks of time but also the experiences and wisdom we have gained. These pearls of wisdom connect to form the chain of our lives.

How can we ensure that the experiences and wisdom we have gained during our brief trip through life are passed on to future generations when we leave this planet?

Dr. Lee Siew Keong chooses to immortalize his experiences and insights by putting them into words, ensuring that they are passed down to future generations. He believes that this is the best way to leave a lasting impact and make even greater contributions to humanity's future, transcending his own self.

LIFE
\ is what we
leave behind

Some may argue that starting from scratch can be most challenging as it requires acquiring new knowledge and skills, as well as dedication time and effort to reach the desired goal. However, Dr. Lee Siew Keong embraced this challenge and took on the pursuit of his PhD while also delving into the world of woodworking, despite his lack of prior experience in the craft.

Mastering The Art Of Woodworking

From The Ground Up

“During the pandemic’s outbreak, we couldn’t find any shops selling wooden cabinets for our fish tanks. So I decided to make my own. However, I had no prior experience in woodworking and even had the audacious idea of buying a mini hand saw and boasting that I would create a six-foot wooden cabinet!”

Dr. Lee Siew Keong laughed as he recalled the ridiculous scene. Despite being mocked for his arrogance, he never gave up his passion for woodworking. Regardless of facing numerous failures and a body covered in aches and bruises, he aggressively sought out various materials for self-study and was never defeated.

“At the time, do you know what our company had the most of? Bandages. I was constantly getting cuts on my fingers and feet. There were wounds all over!”

Dr. Lee Siew Keong’s carpentry skills flourished with persistent practice and development. He progressed to crafting intricate wooden products and even personalized wooden artworks as gifts for the management and Legacians.

Venturing Into Uncharted Territory

By Breaking Out Of Comfort Zone

Through this process, Dr. Lee Siew Keong came to the full realization that extending one’s horizons, increasing one’s abilities, and achieving higher heights can only be accomplished by constantly attempting new things and pushing oneself to new limits.

“If you were to ask me whether I feel scared when encountering new things for the first time, my answer would be ‘Yes, I do!’ However, if we let our fear prevent us from trying new things or taking on unfamiliar tasks, we will never achieve anything.”

To reach higher levels and become better versions of ourselves, Dr. Lee Siew Keong emphasized the importance of constant experimentation and practice. This requires courage to try new things and persist in doing so, even when facing adversity and challenges. It is essential to maintain a firm belief and confidence to keep pushing forward towards our goals and ultimately achieve success.

ILLUMINATING EXCEPTIONAL ACHIEVEMENTS ON A COMMON PATH

From its humble beginnings as a small startup, Return Legacy has come a long way to achieve its established state. Throughout the company's journey, it has encountered challenges and undergone changes but yet it has consistently demonstrated resilience, establishing a distinctive corporate culture and brand identity. Each Legacian has left their mark on this journey, and every experience has enriched the company's impressive history. The company's pioneering mindset has opened new doors for its future. Return Legacy's past achievements and grandeur are akin to a vibrant tapestry, eternally imprinted in our hearts.

Return Legacy is steadfast in its commitment to continuous exploration and innovation, consistently exceeding expectations, striving for excellence, and shining brightly on the business arena, attaining success as it moves forward into the future.

environment with the United Nations Sustainable
Development Goals (SDGs).

Return Legacy held its "Metamorphosis:
The Infinite Legacy" Paragon Night 2022.

2023

Welcoming Taiwanese Legacians to Return Legacy

In March of this year, we had the pleasure of hosting Taiwanese Legacians for a 5-day 4-night incentive trip to Malaysia. During their visit, we provided a tour of our headquarters and Legacy Innovative Manufacturing and Facilities (LIMAF), providing them with an opportunity to experience our corporate culture and products firsthand. We believe that this visit will serve as a source of inspiration and motivation, encouraging them to continue working hard and creating valuable experiences in their careers.

Launching REOXlife Vitamin E

Vitamin E is a crucial nutrient that provides numerous health benefits to the human body. REOXlife's Vitamin E is a natural form of RRR-alpha-tocopherol extracted from fish skin, available in a stable powder form that can withstand air and heat. Its bioavailability is approximately twice as high as synthetic vitamin E, resulting in better absorption by the body.

Introducing the MOXIsKIN ILLUMINATING Collection

Our Legacy Science team is committed to enhancing skin luminosity. To achieve this, we have developed the MOXIsKIN Illuminating Collection, a comprehensive skincare range comprising a cleansing gel, refining lotion, serum, and moisturiser to nourish the skin from within. By combining state-of-the-art technology with natural extracts, the MOXIsKIN Illuminating Collection revitalizes the skin's natural defences, offering a luxurious and radiant skincare experience.

MOXI^{skin}

ILLUMINATING COLLECTION

UNLEASH THE EXTRAORDINARY GLOW WITHIN YOU

Our skin is akin to delicate petals, emanating a fine and charming radiance. However, the ruthless march of time and the ravages of external factors such as the sun and wind gradually strip it of its shine and vigor. As a result, it becomes dull and lifeless, hindering us to confidently and gracefully exhibit our sophisticated and elegant lifestyle.

The appearance of dull and yellowish skin indicates an unhealthy condition that results from both internal and external factors. Inadequate skin cleansing, prolonged exposure to sunlight, and insufficient sleep are some of the contributors to irreversible skin damage. Moreover, unavoidable exposure to digital blue light for extended periods can further accelerate the melanin deposition process, causing the loss of natural translucency and radiance in the skin.

UNVEIL YOUR TRUE RADIANCE WITH MOXIskin^{skn} ILLUMINATING COLLECTION

To provide extraordinary illumination to the skin, our Legacy Science team seeks to understand the various factors that impede skin luminosity and developed a full ritual — the MOXIskin ILLUMINATING Collection. This collection is a complete skincare ritual that includes all the essentials to ensure that your skin never has a dull moment. Say goodbye to dark spots, uneven skin tone, and dullness, and hello to a youthful, illuminated glow.

The primary ingredient in the MOXIskin ILLUMINATING Collection is Citrus Reticulata (Tangerine) Peel Extract, which can enhance the reflection of light from the deeper layers, giving your skin a radiant and confident glow. But that's not all - Citrus Reticulata (Tangerine) Peel Extract also improves the structure of your skin cells, reducing roughness and dullness on the surface of your skin. It induces natural moisturizing factors and evenly distributes keratin filaments, leaving your skin feeling hydrated, elastic, and perfectly firm.

MOXISKIN ILLUMINATING CLEANSING GEL

MOXIskin Illuminating Cleansing Gel is a gentle gel cleanser for all skin types that draws out impurities, excess oil, and pollutants with a refreshingly light touch. Its gentle foaming action preserves skin's natural barrier, leaving it instantly refreshed, perfectly smooth, and hydrated.

The main component of this cleansing gel is betaine, which provides a luxurious and silky-smooth feel to your skin. Not only does it offer deep and long-lasting hydration, but it also treats the immediate effects of dehydration to give you plump and nourished skin. Betaine works by maintaining the moisture balance of your skin, ensuring that it remains healthy and hydrated throughout the day.

APPLICATION

- Dispense a small amount of cleanser onto your palm and massage on moistened face and neck
- Rinse thoroughly with water and pat dry
- ROUTINE: AM and PM

MOXISKIN ILLUMINATING REFINING LOTION

Refresh your skin with MOXIskin Illuminating Refining Lotion, an alcohol-free toner, that is designed to improve your skin's appearance and nourish it with deep hydration. Experience this luxurious sensation, revealing a smooth and radiant surface that is sure to turn heads.

Powered with the combination of three types of acid, AHAs, BHAs, and PHAs is the perfect balance of hydration and exfoliation. It gently exfoliates your skin, revealing a brighter, more youthful complexion. And that's not all - it also helps to purify acne-prone skin, leaving you with a flawless, blemish-free complexion you'll love.

APPLICATION

- After cleansing, spray lotion directly over the entire face with eyes closed
- ROUTINE: AM - Follow with your serum, moisturiser, and sunscreen
PM - Follow with your serum and moisturiser

MOXISKIN ILLUMINATING RADIANCE BOOSTER

The MOXISKIN Illuminating Radiance Booster is formulated to strengthen the skin's natural barrier, prevent premature aging, and help you achieve the radiance and even tone you've been dreaming of. By resurfacing and evening out your skin tone, it helps to reduce the appearance of dark spots and hyperpigmentation, leaving you with a smooth, radiant complexion that looks and feels amazing.

The key component of this essence is Glucosyl Hesperidin, a potent antioxidant that can protect your skin from harmful environmental stressors, giving it the love and care it deserves. The anti-inflammatory properties soothe and calm irritated or inflamed skin, leaving it feeling soft and supple.

APPLICATION

- After toning, apply an appropriate amount on face and neck area
- Gently pat for better absorption
- ROUTINE: AM and PM

MOXISKIN ILLUMINATING REVIVE MOISTURISING CREAM

The MOXISKIN Illuminating Revive Moisturising Cream features a gentle and nourishing formula that delivers luxurious care to your skin, leaving it soft, supple, and rejuvenated. More than just hydrate also helps to brighten the skin, reducing the appearance of dark spots and hyperpigmentation. It enhances the effectiveness of other skincare products, so you can be sure that you're getting the most out of your skincare routine.

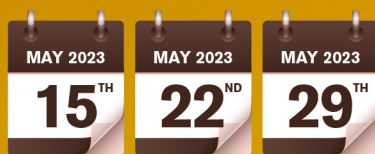

The key ingredient in the this moisturising cream is Acetyl Glucosamine. It's not just any ordinary ingredient - it's a superstar moisturizer that helps to improve skin hydration, leaving your skin feeling smooth, supple, and nourished. Acetyl glucosamine also helps to brighten the skin by inhibiting tyrosinase activity and reduction in melanin synthesis, leading to a brighter, more even complexion.

APPLICATION

- Take an appropriate amount and smooth evenly over face and neck
- Slowly massage until fully absorbed
- ROUTINE: AM and PM

999.9 GOLD BAR

An Extraordinary Beauty
to Behold

To commemorate its 9th anniversary, Return Legacy has unveiled a 999.9 Gold Bar that embodies the theme of "Transcending to the Extraordinary". This exceptional creation symbolizes the company's exceptional belief to pursue dreams and aspirations in all aspects of life. It is this very spirit that has paved the way for Return Legacy's brilliance and glory.

Featuring a sleek and sophisticated design, the Gold Bar elegantly displays the Return Legacy logo on its front and the 9th-anniversary logo on its back, seamlessly blending the company's brand with the passage of time. With nine years of unwavering dedication through challenging times, Return Legacy has emerged as a prominent figure in the business world, shining brightly among its peers.

The compact yet robust design of the Gold Bar embodies the Legacians resilient and determined spirit. Similar to stars in the vast universe, each Legacians holds immense significance with their unyielding determination and indomitable passion, creating remarkable value for themselves and society as a whole.

The Gold Bar's radiant and shimmering appearance resembles a shooting star in the infinite expanse of time and space, representing the ultimate reward for self-achievement. It also serves as a perpetual reminder to Legacians to tackle every obstacle with unyielding determination and unwavering passion, enabling them to stand out among the crowd and showcase their extraordinary brilliance.

Return Legacy 999.9 Gold Bar Challenge Qualifier List

(as of April 30th, 2023)

As the Return Legacy 999.9 Gold Bar challenge approaches its end after two months, we want to applaud all Legacians who have completed the challenge thus far. For those who are still in the process, we offer words of encouragement to keep pushing and striving towards the finish line!

The path of life is often paved with challenges, but our Legacians has proven to be resilient and successfully completed the challenges of the past two months. As we enter the final month of the challenge, let us join forces and push ourselves to new heights!

LEGACY NEWS

MAY-JUNE 2023

Welcoming Taiwan Legacians to Return Legacy

We were thrilled to host our Taiwanese Legacians during their 5-day 4-night incentive trip to Malaysia this March. During their visit, we gave them an exclusive tour of our headquarters and Legacy Innovative Manufacturing and Facilities (LIMAF), providing them with a comprehensive understanding of our operations. It was an incredible opportunity for them to experience our corporate culture and witness our products' quality firsthand.

During their visit, we ensured that our Taiwanese Legacians had an unforgettable experience, filled with memories that will last a lifetime. The tour provided them with a deeper understanding of our company and products, allowing them to gain valuable insights into our business operations. We believe that this visit will serve as a source of inspiration and motivation, encouraging them to continue working hard and creating valuable experiences in their careers.

We are honored to have had the opportunity to share our passion for our company and industry with our Taiwanese Legacians. We are committed to continuing to support their growth and development and providing them with the resources they need to succeed in their careers.

Return Legacy held several offline events in March and April 2023; some were at Return Legacy HQ while others were held in various locations across Malaysia. We are pleased to see that our events held away from the HQ received such a rousing response – it showed us that our events yet to be held will almost certainly see massive turnouts as well!
